

Quicken 2005-2006

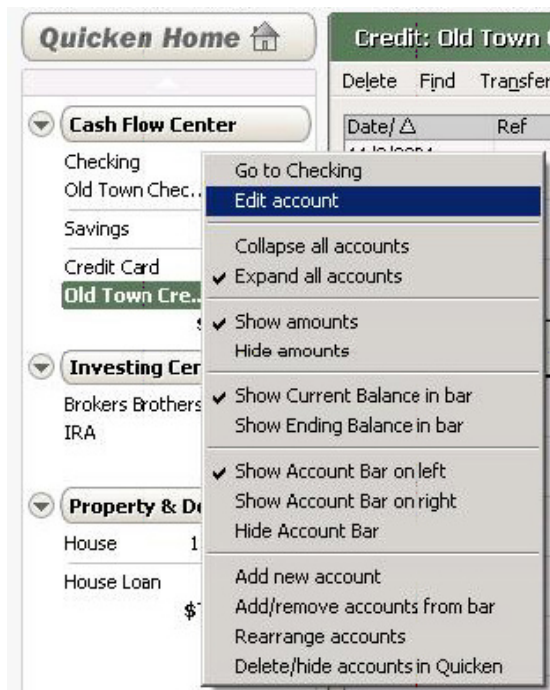

Instructions for Deactivating/Reactivating Your Discover Card Account

(1) If you haven't already, log in to the Account Center at Discover.com so we can automatically transfer your account preferences, including the ability to download your transactions into Quicken.

If you have been using your 16-digit account number to access your account, you will be prompted to create a user ID. If you already have a user ID, your existing user ID will be displayed. In either case, please note your user ID, as you will need it to update your Discover Card account in Quicken.

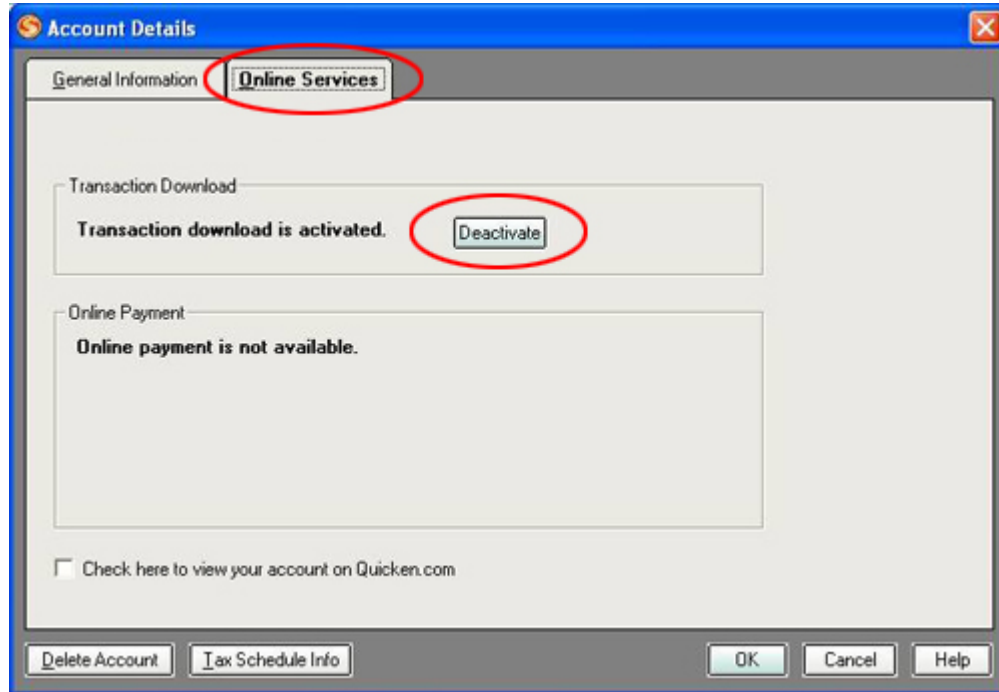

(2) Launch Quicken.

(3) From the list of accounts under **Cash Flow Center**, right-click on your Discover Card account and select **Edit account**.

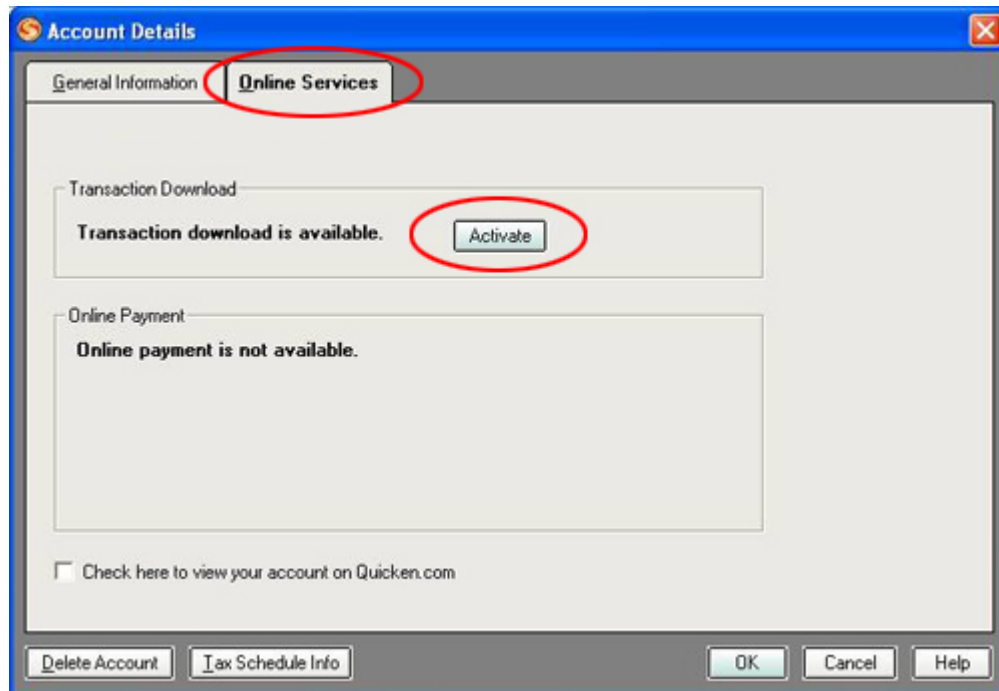

(Alternatively, from the **Tools** menu, select **Account List** and then click the **View Accounts** tab. Select your Discover Card account and click **Edit**.)

(4) An **Account Details** box will appear. Click the **Online Services** tab. In the **Transaction Download** section, click the **Deactivate** button. Confirm the remaining prompts.

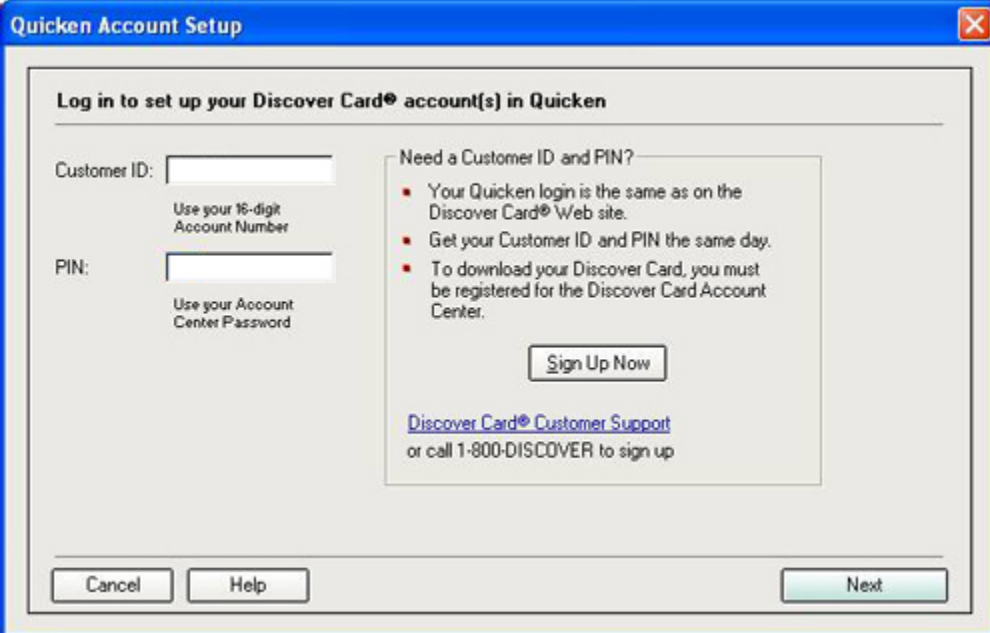

(5) Now you need to reactivate this Discover Card account. In the **Transaction Download** section, click the **Activate** button.

(6) A **Quicken Account Setup** box will appear. In the **Customer ID** field, **enter your Discover Account Center user ID**. This is the same user ID you use to directly log in to the Account Center at Discover.com. Do not use your 16-digit account number.

In the **PIN** field, enter your Discover Account Center password.

The screenshot shows a dialog box titled "Quicken Account Setup" with a blue header bar. The main content area is titled "Log in to set up your Discover Card® account(s) in Quicken". On the left, there are two input fields: "Customer ID:" with a text box and the instruction "Use your 16-digit Account Number" below it, and "PIN:" with a text box and the instruction "Use your Account Center Password" below it. On the right, there is a section titled "Need a Customer ID and PIN?" containing a bulleted list of instructions: "Your Quicken login is the same as on the Discover Card® Web site.", "Get your Customer ID and PIN the same day.", and "To download your Discover Card, you must be registered for the Discover Card Account Center." Below this list is a "Sign Up Now" button. At the bottom of the right section, there is a link for "Discover Card® Customer Support" and the text "or call 1-800-DISCOVER to sign up". At the bottom of the dialog box, there are three buttons: "Cancel", "Help", and "Next".

(7) Finally, click **Next** and then **Done**. Quicken is now configured to download transactions from your new Discover Card account.
